Submit your ideas for capital projects that can be funded through a voting process by and for District 3 neighbors before **January 31, 2016**. We have \$100,000 to allocate together. Examples of eligible projects could be: traffic calming, technology, books, laptops, art projects. Eligible ideas must:

- Benefit the public.
- Are a one-time expense that can be completed with funds from the 2016 Participatory Budgeting process.
- Are capital projects, which usually involve infrastructure improvements (as opposed to operating projects, which usually fund salaries and services). Infrastructure is usually physical, but not always. Many technology-related projects, such as developing an app or expanding free public Wi-Fi could be eligible.
- Are implemented by the City of San José on City property (streets, sidewalks, parks, libraries, community centers, municipal buildings, etc.)
- Are located within District 3 of San José (the area including and surrounding downtown)
